Course selection is an important time to choose wisely for next year. The final decision on course selection for students under 18 years of age rests with parent/guardians. Therefore, keeping in touch with your child's guidance counsellor and teachers is important. Consideration of the student's achievement for the past several years and the advice of the school, will help in choosing a program for which your child can achieve success.

Course selection sheets are an important vehicle for the educational planning process and are required each year. It is the responsibility of all students and their parents/guardians to complete course selections by the prescribed date.

Changes to a student's timetable will be made for sound educational reasons only and are dependent upon course availability and location. It is not always possible to make changes. It is very important to think about your course choices during course selection time.

Please note that in some cases, courses will be cancelled when there are not enough students enrolled.
